THE DAMS.

Work on the Dams at Salt peter and Chapman is progressing nicely.

The inability of the Engineer office in Cincinnati to procure competent men to put in charge of the dam at Salt peter and of the building of the dam at Chapman has caused much delay in beginning the work. The necessary machinery and material have been ready and on the ground at both places for some time, and hundreds of men are waiting for the call to labor. The long wait is at last ended and work will begin at once. E. F. Flinn, an engineer of skill and experience, has been assigned to the Let'sa dam as engineer in chief, while J. L. Richmond, formerly of the N. & W., has been made Inspector. Some cross sectioning has to be done and then come the shovel and the pick and all the various operations involved in the construction of a big concrete dam across the Sandy.

Mr. A. M. Campbell, who is the engineer in charge of this river, has secured a man from Cincinnati office as engineer to direct the work at Salt peter, but he has not learned who he is. The Inspector is already on the ground. There will also be a subinspector at each place.

Your Uncle Samuel moves with deliberation and provoking slowness sometimes, but he finally gets there.

Fred M. Vinson.

Fred M. Vinson, son of James Vinson, of this place, will leave in a few days for Danville, Ky., to enter Center College. He graduated from Kentucky Normal College at this place last June with a very high record. His thesis delivered at the commencement exercises attracted much attention and elicited the most favorable comment. He has always stood at the head of his classes. At Center he will enter upon a course that will best prepare him for the study of law, which he will take up later. Fred's friends feel that he has chosen the profession in which his talents will serve him best and have the widest opportunities for the largest attainments. His course will be watched with interest as he gives promise of a bright future. Big Sandy's pride and reputation will be safe in his hands.

New C. & O. Station.

The Chesapeake and Ohio railway company has established a new station on the Big Sandy branch to be known as "Burnbaugh" which will probably be opened about next Monday. The station is situated midway between Burgess station and Kavanaugh. The lands of Col. J. B. Powell, I. C. Lyons, and the two stations for the property, "Vival" and "Bur" for Burgess and "naugh" for Kavanaugh.

Returning From the West.

Rev. Lon See and family have returned from the State of Washington where they went last spring. Also, the family of Crit See arrived recently from Oklahoma. They moved there in the early spring. Mr. See will remain in Oklahoma until his crop is gathered and disposed of. All are glad to get back to Big Sandy, the best country on the face of the earth—a fact which is thoroughly appreciated only by those who have tried living anywhere else.

Operation For Appendicitis.

Jeff Burgess, of Gallup, was operated upon last Sunday for appendicitis and is now doing well. He had had two or three attacks of the disease, and surgical interference was necessary to save his life. The operation was performed by Dr. T. D. Burgess, of Matewan, assisted by Drs. Bromley, of Louisa and J. O. Moore of Mat-

Pleasant School Opening.

Pikeville, Ky., Aug. 31.—News has just reached here of one of the most sensational school fights that ever occurred in Northeastern Kentucky, which happened in District No. 55, Pike county, which is near the headwaters of Johns creek. Two of the recognized trustees, Steven Trout and Brack Layne, employed Prof. David Layne as teacher, and on the morning of the 28th inst. said trustees went to the schoolhouse and placed Prof. Layne in charge of the school. In a very short time after school had opened one Geo. Deskins, another trustee, followed by two other claimed to be trustees and many others, numbering near twenty-five persons, including Miss Maude May, who was the teacher employed by the Deskins crowd, came to the schoolhouse and entered the school building, and said Deskins pounced upon Prof. Layne and they fought with their fists for many minutes. During the fracas Henry Varney assaulted and knocked to the floor, senseless, Trustee Steven Trout, and Uncle Lewis Deskins, father of Geo. Deskins, hit Brack Layne, another trustee, in the head three times with a heavy walking cane, and chased him out of the house and off the school ground. As soon as Mr. Trout regained consciousness he was forthwith pulled out of the house and marched off the grounds with Prof. Layne, this leaving the Deskins crowd in possession of the school, and they proceeded to insult teacher, Miss Maude May.

A series of revival services has just closed at our school house. While we hope for great many conversions we have had much and lasting success has been accomplished through good meetings.

Gus Moore of Charley last week, buying sheep, was here.

The Ulysses base ball team composed of school boys of this place went to Bond's boys of this place played in their Chapel Saturday and score their District team. The Ulysses stood 30 to 20 in favor of the Bond's boys.

Several persons from this place attended the funeral of Mrs. John Jay Brown at her old home Saturday and Sunday.

Mrs. Gussie Allen grows worse. She has consumption. Eureka.

Walbridge

Since our last letter from this place death has made two visits in our midst. The first was the wife of Karl Compton. On Aug. 20 her soul took its flight back to the God which gave it. She had been a sufferer ever since she had lived in our neighborhood. Karl Compton married Mrs. Sarah Dingess, of Dingess, W. Va., about a year ago they moved to their farm here on Three-Mile, last spring where they intended to make their future home. On the date above mentioned she bid farewell to her earthly friends. She was loved by all who became acquainted with her during her short stay among us. The cause of her death was consumption. She was fully prepared to go. She leaves a husband and a little baby just month old and a host of friends to mourn their loss. Her body now rests in the Summit graveyard, awaiting the great Judgment Day. Her funeral was presided over by Rev. J. S. Peters.

On Aug. 29 Lane Cartmell departed this life. Mr. Cartmell was formerly a citizen of this county but for the past 12 or 18 years he had lived in Boyd County. Mr. Cartmell's health had been bad for a good many years. He had come here to visit relatives and many friends when he was taken down and could not return home. I have known Mr. Cartmell from my boyhood and can say that I always found him to be an honest, sober, truthful, moral citizen. He was a member of the Christian church and on his death bed he told his friends he was waiting for God to take his heart. Do they live in a log home. His remains were laid to rest in the Summit burying ground. The fire on its humble hearth side his first wife and two daughters in an Aladdin palace.

Mr. Cartmell leaves two brothers, one sister yet living. William Howell, of Williamson, and Thomas Fortner. His funeral was conducted by Revs. Fraley and Ricky of Torchlight.

A. O. Scott, of Williamsburg, William O'Brien Sunday.

Mrs. Macon Kinzie is at Fort Gay this week.

The e of G. C. Coburn is dangerous. Little or no hope of recovery extended.

J. Austin, whose illness was mentioned before, is so greatly improved that he can return to his home in London, Ky., in a few days.

S. J. Braddock and S. R. Mallott are in the sick list at this time, but will be able to work in a few days.

Mr. Import, of the Waits-Ritter Dry Goods Co., was here Tuesday doing some business for his firm.

Married, last Friday by Rev. F. F. Hiram Husley to Mrs. Mary Young. This is quite a happy union, the groom being 70 years old and the bride 46 years old. This is the second set of harness of this kind that each of the parties have worn.

Rev. H. H. Miller officiated on

Sunday last at the marriage of Mrs. Ellen Mead, age 39 years to John S. Stidham, aged 32 years. This is also a second set of matrimonial harness that these folks have worn.

All these folks have the best wishes of all for a long and happy life.

Of course the "bell brigade" did ample justice to its part of the program and to say the least, the performance was one of the very best ever exhibited in our town. More to follow.

Where is the stream of life so dark and unpropitious that the sunshine of a happy face falling on the turbid tide will not awaken an answering gleam?

SOMETIMES.

Sometimes the hasty word has been spoken, the sharp, snappish word been carelessly uttered in the home circle. The true wife's heart so often bleeds at the bitter, thoughtless, but cutting words of a husband. When she is gone to heaven and he "weeps over her bier" he will remember it.

Sometimes the husband finds no warm kiss of affection and sweet, cheery word of welcome at the door and fireside, when at nightfall he comes home weary and heart-heavy from toil which may have yielded small return. O, my friends, how bright our homes ought to be. Kind words, loving deeds and pure affection

should rule in them. Are the little odes made to feel that home is the sweetest, cheeriest, best and brightest spot this side of glory?

From allurement abroad which just flatters the eye.

Will the heart unceasingly turn with a sigh

While far distant in the sadness may roam,

And sing in sweet melody "there was no place like home."

FARMER'S WIVES.

We often find farmers who lose no chance of securing machinery for saving labor on the farm, but who don't think anything about the machines that save labor in the house. That

is out of their province and they don't seem to care enough about it to give the matter any attention whatever.

Such treatment is calculate to discourage the woman. It is the worst

kind of selfishness. A woman's work

on the farm is quite as hard as a man's if the man could only be made

to realize it, but—he won't, in many cases.

He consults his own interests, and lets his wife get along the best way she can, forgetful that her interests are identical with his own, and should so be considered by him.

Lighten the labors of the women all you can. Don't think it will encourage idleness to introduce articles of

labor-saving machinery in the kitchen. It never has done so, and never will.

Back of the machine is the woman, and the woman on the farm will always find enough to do.

HOUSEHOLD PIETY.

Your household piety will be the crowning attribute of your peaceful home—"the crown of living stars" that shall adorn the night of its tribulation and the pillar of cloud and of fire in its pilgrimage to a "better country."

The Indiana State Convention of the Independence League will be held in Indianapolis on Thursday. Mr. Hagen and William R. Hearst will be there.

The National Encampment of the Grand Army of the Republic and the National convention of the Women's will be in session in Toledo throughout the week and the United States Spanish War Veterans on Tuesday will begin a three days' encampment in Boston.

While the majority of the members of the New Orleans fire department were at a picnic fire broke out in the wholesale business district. Before a sufficient force had been assembled to fight the flames three blocks were swept and the loss is estimated at between \$1,000,000 and \$2,000,000.

Lieut. Gen. Alexander P. Stewart, of the Confederate States army, died Sunday at Biloxi, Miss. Death was due to the infirmities of old age. After the death four months ago of Lieut. Gen. Stephen D. Lee, commander-in-chief of the United Confederate Veterans, Lieut. General Stewart and Lieut. Gen. Simon Bolivar Buckner, of Kentucky, were the only surviving Lieutenant Generals of the Confederate States army.

The Republican split in West Virginia according to visitors from that State, can hardly be healed before the end of the campaign. Senator Elkins has given out a statement in which he practically admits that the faction fighting the regular organization ought to play quits, but those fellows declare they will do no such thing, no matter what happens.

Senator Scott also has been trying to pour oil on the troubled waters, but with little hope of pacifying the warring factions. What Elkins fears greatly, and he virtually charges the Scheer faction with it, is that this faction is forming certain alliances with the Democrats. This is denied, of course, by the faction under suspicion. From all accounts the Democrats are much pleased over the situation, and they are getting ready to make the most aggressive campaign they have undertaken for years. The National Republican campaign committee does not seem to be able to smooth out the difficulty. The Democrats think they see a mighty good chance to swing West Virginia, therefore, to Mr. Bryan, in addition to electing their State ticket.

A sluggish liver means a coated tongue, a bad breath, and constipated bowels. The question is, "What is the best thing to do under such circumstances?" Ask your doctor if this is not a good answer: Take laxative doses of Ayer's Pills."

The 220 hotel bars and saloons of Atlantic City were closed, Sunday. Up to a late hour no arrests had been made.

Representative Sereno E. Payne, who was renominated for Congress by the Republicans of the Thirty-first New York District, declared his belief that the time had come for tariff revision.

Contributions to the Republican campaign fund are so slow in coming in that it is common talk among well-known men high up in the party councils who are to be met in Washington that the fellows at the Eastern and Western headquarters are beginning to "squeal" about the backwardness of those who are counted upon to fork over the cash. Nothing like it was ever known before. In the two McKinley campaigns, it is recalled, Mark Hanna did not have an trouble in getting money, nor did Cortelyou in 1904. Just how many millions were at Hanna's disposal, he and those associated with him only knew. They had more than they wanted, and it was used in every possible way to prevent Bryan from winning enough votes to carry the doubtful States. In those two campaigns Hanna and Company did not even go around soliciting contributions. They came in voluntarily, so many of the now complaining Republicans assert.

SPECIAL NIGHTS AT THE KENTUCKY STATE FAIR.

J. V. Beckman, manager of the Retail Merchants' Association of Louisville, is general chairman of the Special Nights Committee, and has been busily engaged for several weeks in arranging the most attractive night programs possible.

Monday night will be School Children's Night. Prof. E. H. Mark, superintendent of the Louisville public schools, is chairman of the committee in charge for that night.

Tuesday will be German-American Night, with Mr. Louis Seelbach in charge; Wednesday, Labor Night, John Young, president of the Federation of Labor, chairman; Thursday, Military Night, Col. W. B. Haldeman, commander of the First Kentucky regiment, chairman; Friday, Irish-American Night, Thomas McCabe, chairman; Saturday, Farewell Night, W. A. Robinson, chairman.

The show rings on Saturday will be especially interesting on account of the various horse championships being awarded that day.

MACHINERY EXHIBITS AT THE STATE FAIR.

An unusually large exhibit of farm implements and machinery is in prospect. Owing to the incompleteness of the State Fair the exhibitors of this department do not share the same advantages afforded them by some of the older institutions in the way of large machinery halls, but every other facility and accommodation will be at their disposal. Commodious space will be assigned to this department, and already a large number of applications are on file, including manufacturers of engines, pumps, stock scales, fencing, mills, road machines, vehicles, harvesting machines, haying machines, planters, plows, and every utensil used by the farmer. The farmer who desires to be instructed in the use of better methods and better machinery will have a great object lesson before him at this Fair.

COLLIE DOGS AT THE STATE FAIR

The collie dog exhibit at the Kentucky State Fair promises to be a greater attraction than ever before. A new departure, one entirely original, and the first ever held in this section will be a sheep trial given by an expert, which will show the usefulness of the collie to the farmer. A creditable show of this nature will appeal to every collie fancier, as four points are to be gained by owners toward championship medal by American Kennel Club. It is expected that this year's show will bring out 150 collies, including many famous Eastern dogs. The sheep trial will be started by expert Eastern dogs. Any farmer in the state desiring to train up his dogs along this line and can compete, will be eligible.

STUDENTS' JUDGING CONTEST.

Following a plan devised by the older state fair institutions of the country and one that has proved eminently successful at all the great Western fairs, as well as a progressive step in the interests of agricultural education, Commissioner Rankin has offered \$100 in cash for a scholarship to the Agricultural Department of the State University for the young man under twenty-one years of age doing the best work in livestock judging at the Kentucky State Fair of 1908, contestant to be required to file a written opinion with the reasons thereon for horses, cattle, swine and sheep exhibits. Correctness of selection will count 55 points and reasons substantiating the same, 45 points.

The Kentucky State Fair management has arranged free amusement program which alone is worth the price of admission.

For catalogue, entry blanks or other information, write J. W. Newman, Secretary, 320 Paul Jones Building, Louisville, Ky.

the action of the grand jury next term of the Lawrence Court. He was in the custody of Sheriff Stone.

Sprouse has also waived a preliminary hearing and will remain in the Boyd county jail, awaiting the order of the Lawrence Circuit Court.

Throughout the trying times of the recent tragedy all the officers connected with the arrest and care of the defendants have acted with commendable courage and discretion. To their coolness and judgment is due the fact that all efforts to execute an unwritten law have failed. Early in the case Sheriff Stone put himself in communication with Judge Hannah. The Judge said he would call a special term of court but for the fact that the law required him to give ten days' notice, and that would bring it to within two or three days of the regular term. He directed the Sheriff to take the defendants to any point in the State, however remote, to insure their safety, and would so direct Judge Thompson.

Cooper bought the farm on which he lived from the mother of Frank Kelley and her daughter, America Castle and daughter. Sprouse had lived in the Cooper house and was probably living in it when Cooper bought it. At any rate he claimed a part of the place, and also some lumber which was in or about the house.

A citizen of Louisa who knows the "whole shootin' match" says that he told Cooper once that he (Cooper) had moved into a hell of a place, and advised him to buy out Sprouse and get him to leave, and the citizen further said that he understood that this was done. There is a rumor which is given for what it is worth that Sprouse had carried off some property belonging to the farm because, as he contended, he had not been paid for his lumber. There had also been suits

between Cooper and Mrs. Castle and Sprouse, but it is said that these had all been settled. There were hints more or less plain when the Cherokee people were in the Court House last Saturday night to the effect that there "was something behind all this burning." Frank Kelley's name was mentioned more than once so our people were in nowise surprised, when the news came Tuesday morning that he had been arrested and would be taken to Louisa. About two o'clock that afternoon Deputy Sheriff Mel Sparks and a single guard appeared at the Court House with Frank Kelley, a prisoner and a much frightened man.

By the advice of his attorney, so we are told, he waived an examination. He was held without bail, charged with being an accessory before the fact to the murder of the Cooper children and the burning of his house. He was more than willing to leave a country which is getting too hot to hold him, and he heaved a big sigh of relief when he was taken aboard the afternoon train, bound for Mt. Sterling, to which place he has been committed for safe keeping, pending

The morning after the tragedy Frank Kelley went to the scene and began to sympathize with the stricken ones. Claude Cooper, a brother of Charley seized a club and struck him several times. Had it not been for the interference of bystanders it is possible that the State would have been spared the expense and trouble of a trial.

Mrs. Tom Burchett, of Deephole, is a sister of Charley Cooper. She and her husband were in Louisa on the day following the tragedy and heard of it here.

On the night of the arson and murder Frank Kelley went to Webbville and stayed all night. Early the next morning some one went to Webbville and told of the horrible occurrence of the night before. When Kelley heard it he said, so we are told, "Lord o' mercy, I've been expecting this for some time."

FARM NEWS ITEMS.

Potatoes that have been well protected all through the season by the Bordeaux spray, are not so likely to rot in cellar or pit.

Don't neglect that crack in the roof too long. Shove in a shingle and fasten it down with a nail, then you'll feel easy.

If your potatoes are rotting, don't be in a hurry to dig them. Let them stay in the ground till they get through rotting. The first cool days will generally put an end to the rot.

Ever hear of the man who spent half a day hunting for the largest ear of corn in his field, then took it to the local paper with the statement that he had sixty acres just like that?

It is a good plan to know and note down the size of every field. Measure a clothesline, tie a stake at each end, and measure the field both ways. Then you can estimate fertilizer, crops and land exactly.

Late August or early September is a good time to cut posts and poles. Peel them at once, let them season, and they will be very durable. Char or tar the end which goes in the ground and their durability is much increased.

When an old farmer dies, one man will say, "Well, I don't think he knew much about farming;" but another will say, "I remember how he let me ride once when I was all tired out." See the point?—remember the good points and forget the bad.

The only way to decrease the amount of smut in corn is to pluck off the smut balls and burn them out. Corn smut spreads rapidly if the smut balls are thrown on the manure pile and the manure spread on the corn fields. Never throw a smut ball on the manure pile.

If affairs at Washington do not go to please you do not be afraid to write to your Congressman. He is your servant, sent to Washington to attend to your business, just as your man does your work in the field. Moreover, your Congressman may be needing a word of advice from home to keep him in touch with his people.

One bushel and a half of wheat is ample to sow an acre. As soon as the wheat is sown, if the land is not underdrained, it is advisable to plow some furrows where they will carry off any water that might collect in depressions. Sow the crop late, so as to escape the Hessian fly—in the North about September 15th or 20th; farther South a week or two later.

If you pour the potatoes over into a deep bin, do not be surprised if they are bruised so that they rot. Potatoes are tender. Set the crate over in the bin and empty it carefully. Raise the bottom of the potato bins off the floor of the cellar a few inches. But do not use sticks of wood to do this if you can get smooth stones of uniform thickness. The sticks of wood will decay more or less, and no decaying matter of any kind should be in the cellar.

This is a busy time of the year, but if you can chink it in, now is the opportune season for fixing the channel of any small creeks or runts that may threaten to tear up your farm. The water is lower now than at some seasons of the year. A few days' work with the team, wagon and scraper may fix the banks and channel so that the waer will not get out of its course and do damage to the land. Our farms are too valuable to be cut up in that way.

From September Farm Journal.

The time to cut corn is generally given as "when it is glazed"; that is when the shucks are white and the leaves are turning. Some, however, think it best to let their corn stand longer until the grain is hardened, thinking that the increased value of the grain more than pays for the loss of fodder, says an exchange. We can hardly advise such method. When the corn is glazed and the leaves begin to turn in color, the work of the stalk is over.

GETTING MONEY.

Voters Who Want to See Bryan
Elected Should Help Swell
the Fund.

Democrats can gain some idea of the amount of money that will be raised by the Republicans from the letters now being sent to the Federal office holders in Kentucky. The Republicans not only have the Federal office holders of the country to draw on, but they have the trusts, corporations and protected interests. They scoff at the methods in which the Democrats employ in raising funds from the people themselves. Therefore, it behoves all Democrats and all voters who want to see Bryan and Kern elected to help swell the Democratic campaign fund by sending in their contributions, however small they may be. Send your contributions to the "Times, Louisville, Ky." mark them for the Democratic campaign fund, and they will be forwarded to Gov. Charles N. Haskell, treasurer of the National campaign fund.

Here are the letters now being sent out from the Republican district and State headquarters in Louisville:

Louisville, Ky., Aug. 20, 1908.—Dear Sir: The Republicans have nominated and send forth as candidates two men who are equal to the best. We want to carry Kentucky this fall for Taft, and to have a large representation in Congress. We now have a Republican State Administration, a United States Senator and a close Legislature. Success this fall means Republican supremacy with all its blessings in this state for years to come. It means greater recognition by the Federal Government. It means much for you. If this is accomplished, it can be done only by the most active and thorough campaign we have ever waged. Such a campaign calls for a large expense, but it wins where victory is possible. We are on fighting ground, and, in the light of advantages already gained it would be foolish not to put forth a supreme effort. We ask your active liberal financial help, and hope that it will not be stinted. We hope it will not be less than \$55. The National Committee expects us to give an account of ourselves in this campaign, and, with the vast amount of work to be done, please don't impose additional burdens and hardships by delaying your remittance. Find enclosed stamped envelope for return.

Yours sincerely,
J. W. McCULLOCH,
Treasurer.

George T. Wood's Letter.
Louisville, Ky., July 30, 1908.—Dear Sir: Every good citizen should be deeply interested in the honest administration of the public affairs.

In times like the present, when the lines are so closely drawn, it is very easy for him to decide where to stand. A pure and intelligent conduct of public affairs makes life worth living. The work of the Republican party stands for itself, and every citizen can point with pride to the progress which our dear land has made under Republican rule. The election of the Republican ticket this fall is, therefore, of the utmost importance, not only to Republicans but to every citizen who has the welfare of the country at heart.

The Republican party is in the middle of a great battle for continuation of good government. In order to carry on this fight successfully it is necessary to have money to meet the legitimate expenses of such a campaign, and we are compelled at the time to call on our friends to aid us in a financial way. The Campaign Committee hopes to make this the banner year by giving Taft and Kinkhead the largest majority ever polled in the Fifth District.

The Committee's need is urgent; you wish to aid in this good work, send your check promptly to the undersigned, 450 West Main Street.

Very truly yours,
GEORGE T. WOOD,
Chairman of the Finance Committee.

Making Glass Brick.

Gloss brick is one of the newest forms of industrial activity. A plant for making such brick has recently been established near Connellsburg, Pa. This brick will be used as a substitute for enamel brick, the National Glass Brick Co., which will manufacture the brick under patents owned by it, has acquired a 10-acre tract of land and erected a plant. The brick, which will be made from opalescent glass, have been approved by a number of prominent architects and engineers to whom samples were submitted. In construction they are hollow and have receding ends. The main objects of their peculiar form are that can be laid either hollow or cement filled as desired. It is said they reduce the weight of the wall without reducing its strength, and the tendency to ship is overcome by the form, as the receding ends and concave surfaces when filled with cement become an integral part of the wall. The products of the company will be handled by L. & R. Wister & Co., 672 Bullitt Building, Philadelphia, Pa., and 507 Frick Building, Pittsburgh, Pa.

Dog and the Lion.

Female lions are apt to eat their young when the latter are born in captivity—to save them from life-long imprisonment, some naturalists maintain.

The baby lion born at the Cincinnati Zoo in July is safe from such a cannibalistic fate however, as he was immediately taken away from his mother and placed in the internal charge of a large mother bulldog, who had a litter of puppies. The mother dog did not seem to object to the addition to her family, although the stranger was somewhat larger and of a different color. Ever since then she has given the little lion nourishment, and the latter is growing fast. He is kept in a cage in the Carnivora with one of the puppies except meal times, when he is put with the mother dog and the lion will doubtless become fast friends, as former lion cubs have played with puppies until almost grown, for this is the custom of the management of the Zoo under similar circumstances.

And you were Johnny Jollypod."

Ironton, O., Aug. 26.—Robert J. Frowine, in jail here for the murder of Henry Frecka, attempted suicide today by butting his head against a sharp shelf projection in his cell. The prisoner wounded himself a dozen times before help reached him, and he will likely die. It is believed that his skull is fractured. Frowine and Frecka were rivals for the place of Central Committee-man on the Republican ticket. Frowine met Frecka on the street and shot him.

Paintsville, Ky., Aug. 26.—Conley, of Rockhouse, died at Fullerton, Ky., Aug. 30.—Yesterday morning at 2 o'clock, Mr. Conley, as a day of accidents in this town.

Maysville, Ky., yesterday made single shipment of coal from this city, by the C. & O. of Kansas. The goods consist of local distillery, and two car loads of 26,000 lbs. is the second large shipper by the same firm during year to that prohibition era.

Conley, of Rockhouse, died at Fullerton, Ky., Aug. 30.—Yesterday morning at 2 o'clock, Mr. Conley, as a day of accidents in this town.

He was sick, however, and teaching school when he should have been in his room. He was a son of Millard F. Conley, one of our best citizens.

Mabel, the 13 months-old child of Mr. and Mrs. White Smallwood, of Ferry street, Russell, is dead from poisoning. The pitiful accident occurred at noon Thursday. The child had accidentally swallowed strichnine tablets. Death followed in a few minutes.

Pikeville, Ky., is the banner real estate town. Last week Messrs. S. H. Bowman, of the well known Bowman Realty Co., Blair P. Wilson, of the Blair P. Wilson Real Estate Co., and E. P. Frost, a successful businessman, all of Huntington, purchased a 15-acre tract of fine building land in the west end of Pikeville, paying \$50,000 cash for the property. The property was at once staked off into lots.

Pikeville, Ky., Aug. 29.—Thos. H. Harmon, once local attorney for E. Rollins Morse, C. B. Hillhouse, and the Eastern Kentucky Coal Lands Corporation, in the famous "land grant" cases in the county of Pike, Floyd, Knott, and Letcher, filed suit in the Pike Circuit Court a few days ago for a balance due him for legal services in the sum of \$310,000, having heretofore received the sum of \$2,700. One of the famous land grant cases is now pending in the Supreme Court of the United States, having been adjudged in favor of the people in all the courts through which it has passed.

JUST EXACTLY RIGHT.
"I have used Dr. King's New Life Pills for several years, and find them just exactly right," says Mr. A. A. Felton, of Harrisville, N. Y. New Life Pills relieve without the least discomfort. Best remedy for constipation, biliousness and malaria. 25 cents at A. M. Hughes' drug store.

A Farm Wanted.

I have an inquiry for a good farm having a comfortable residence and good orchard on it. Would prefer quality rather than quantity. Those having farms for sale will do well to write me at once, giving full description, price, number of acres level,

kind of house, and all particulars that would interest a buyer. Prefer a place within easy reach of Louisville.

M. E. CONLEY.

James Whittington, a baseball player, in a bantam with a friend, jumped from the ferry boat Emily and was drowned.

Jackson Moore, a carpenter, fell from the roof of a house and was internally injured in such a manner that he cannot recover.

Clementine Callahan, another carpenter, while going to see Moore, was thrown from his bicycle and has not been able to walk since. All three accidents happened in the same hour.

Greenup, Ky., Aug. 28.—John Zornes dead, James Schaffer cut to pieces and others more or less injured, is the result of a big fight at Grant Thomas' graveyard on Big White Oak. Report is not very definite as to the general status of the affair. A basket meeting was being held, and drinking was indulged in to quite an extent, so much so that it was necessary to place some rowdies under arrest.

Constable John Darnell, so it seems anticipated trouble, and deputized Henry and Luke Bradley to assist him in keeping peace. James Schaffer, one of the gang, was arrested and as a result, his friends, among them Zornes, undertook to take him away from the officers. A general fight ensued in which Zornes was killed and Schaffer literally cut to pieces, though he is still living. Zornes was stabbed near the heart and lived about four minutes. Both were young men.
